

Bootcamp workshop: Prepare to launch your startup project

Would you like to accelerate your startup creation project and move on to acquiring your first customers? To help you achieve this, SKEMA Ventures is organizing its annual **Bootcamp** on the Grand Paris campus from May 2 to 4.

The Bootcamp is specifically aimed at entrepreneurs whose project is quite developed and ready to be launched. It is also dedicated to students and alumni entrepreneurs who have already created their startup and wish to prepare for a professional presentation of their project to potential partners, investors, and clients.

Participants will benefit from the support of SKEMA Ventures' experts to accelerate the implementation of their project. Projects will be selected by the SKEMA Ventures team based on their progress and their consistency with the SKEMA Ventures charter, and according to the first come, first served policy.

SUBMIT YOUR APPLICATION FOR THE BOOTCAMP

The deadline to submit the application is April 26.

BRAZIL | CHINA | FRANCE | SOUTH AFRICA | USA

LEARNING OUTCOMES

The Bootcamp will enable you to:

- Test the relevance of your business model and strengthen your business plan.
- Connect with potential partners and investors.
- Present your project in front of peers, investors, and stakeholders to achieve a clear and valuable understanding of your innovation.
- Progress towards acquiring your first customers.

At the end of the workshop, participants will have to present their project in front of a jury composed of investors, experts from the entrepreneurship ecosystem and SKEMA alumni entrepreneurs.
